

The Flexible Analog & IP Integration Choice

NUUO Mainconsole

FLEXIBLE • INTELLIGENT • POWERFUL

Your Best Digital & Analog System Bridge

1 Flexible & Configurable

- NUUO Mainconsole offers great options to bridge your analog and IP cam system. You no longer have to choose or abandon either option when upgrading or expanding your current system!

2 Great 3rd Part Solution Support

- NUUO Mainconsole supports POS, LPR, and I/O devices, easily expandable and configurable is what this product is all about. You can mix and match between all the different solutions to find one that fits your scenario best.

3 Smart Video Analytics

- NUUO Mainconsole supports advanced video analytics function that does more than just counting. Easily define zones, set boundaries, track objects, and receive nicely formatted reports at the end of the day.

4 Bandwidth Saving Features

- You will be able to choose profiles and adjust stream quality based on it. Now you can change the quality of the streams and no longer need to rely on transcoding. This greatly saves CPU loading and lightens the machine load!

5 Dual-password Security

- Fully supports four-eyes policy. Dual password security system adds another layer of protection to the system, ensuring the highest level of security for your video data.
